The OLD MAESTRO himself, holding a 12-inch bloom of the beautiful Dahlia KATHLEEN NORRIS.

The photographer said, "Give us a smile, John." Well, I done the best I could. It's a wonder there was any camera left after that smile. Maybe after you've fought all kinds of bugs and insects for 20 years or more, you'll have a few wrinkles also.

On account of the price of printer's ink, I have tried to economize in the length of the various descriptions and have passed the saving on to you in the way of a better price for the varieties offered for your consideration. Some of the later varieties are priced low because I have a surplus of those varieties.

I take great pleasure in presenting you with my 1938 DAHLIA CATALOG. The best of the new and some of the old varieties that are still worth while growing. All new introductions are grown from introducer's stock. This stock consists of the highest quality field grown roots. They are fully guaranteed true to name and to arrive in good growing condition. As a rule Roots and Green plants will give equally good results, if plants are given immediate care on arrival. The plants are all hardened off before being shipped, and packed so that they will arrive in good condition.

Our advice with plants on arrival is, to pot them in about 4-inch pots for a short while to give them a chance to rest up after the trip. A week or two should be sufficient to get the plant in shape to plant out. Be governed by the ground conditions, also the weather, when you do plant out. Try this method if you have never tried it before. You won't be sorry for the extra trouble. It really

means the difference between success and failure. The above also applies to rooted cuttings. Now when potting rooted cuttings, don't put the roots clear to the bottom of the pot. Hold the plant between your thumb and first finger and let some dirt sift through to the bottom of the pot—about one-half full. Then set the plant and, still holding it, fill the pot with dirt. After filling the pot shake it down to settle the dirt firmly about the roots. Last, press that dirt in the pot with both thumbs to be sure the plant sets in the pot properly.

If you wish special delivery on roots, or plants, please enclose 25c with your remittance. We recommend plants be shipped special delivery as that insures prompt and careful handling.

Terms, Strictly CASH. Remittance with order or in advance of shipment. 25 per cent will hold order until ready for same.

As orders are receiving stock will be reserved and shipped at the proper time.

Notice to Ohio Customers.

A sales tax of 3 per cent must be collected on all purchases as follows: 9c to 40c—1c tax; 41c to 70c—2c tax; 71c to \$1.08—3c tax; 3c tax on each additional \$1.00 must be enclosed with your remittance.

Wholesalers (Ohio) please send your Vendor's license number. Send remittance by money order, express, or registered mail. Money order preferred. I'll see that you get extras enough to more than repay you for your trouble.

For you newcomers in the Dahlia game, there is nothing really difficult or mysterious about growing Dahlias. The main things to provide for are: Good drainage, constant cultivation, and a little use of the gray matter you possess commonly called brains. Don't expect to grow them as well as some of your friends and neighbors who have been growing them for years. Keep at it. You'll get there. Don't be afraid to ask questions. You indoor workers get outside after the evening meal, and get your feet in the ground, and potter around among the flowers, and you will experience that something that changes your whole make-up. (Ladies please don't misinterpret what I mean.) Try it. Drop me a line occasionally and let me know how you are making out in your new pastime.

Always pleased to talk or write about Dahlias.

For you newcomers especially. If undecided as to which varieties you would like to buy, let me suggest the following:

Make up your mind just what amount of money you want to spend for Dahlias, the color and types you like, and send me the amount and I'll guarantee to send you roots that will be satisfactory and that would cost at catalog prices. at least, twice the amount.

SPECIAL NOTICE

All Dahlia root and plant prices are F. O. B. Cincinnati, Ohio. I am getting too old to look after and take care of all the plants I grow and it does not pay to hire labor, as you are never satisfied with the majority of the labor you can get, so I have decided to curtail my Dahlia planting. I have a very dear friend who has been forbidden by his doctor to worry about the Dahlias he grows and, as most of them are mine anyhow, I have taken this means to dispose of what I can. I don't aim to cut prices as a regular thing, and you may never be able to again get the prices listed in this list for the stock offered.

Some of the varieties are rather low, so if possible make a second choice. When writing for a list, PLEASE PRINT YOUR NAME, as we are not all first-class penmen. So if any of you happen to get a list with a question mark (?) after the name, you will understand it's the best I could do.

I prepay postage on all plants except Dahlias. Orders under \$2.00, consignee pays the postage.

MINIATURES

BABY ROYAL SC-Salmon, Pink and Apricot	.15
BEATRICE VON VALKENBURG FD—Small Orchid	.25
BISHOP OF LLANDAFF DU—Brilliant rich Red	.25
